

The Top Quality Drought Tolerant Bluegrass

Bedazzled is a top performer among Kentucky Bluegrasses in turfgrass quality. It exhibits strong color, desirable texture, exceptional disease resistance and drought tolerance.

With broad adaptation to various management regimes, its compact growth habit and slower growth rate make this an obvious choice for turfgrass professionals.

Call us at **TMI** about this unique “*America Type*” Kentucky Bluegrass hybrid.

Bedazzled is a TWCA qualified grass seed ideal for sod production, as well as sports field, parks and recreation, and landscaping applications.

NTEP trials showed **Bedazzled** to be #1 in quality across wide geographic conditions, proving it to be highly adaptable.

Mean Quality Ratings - Grown At Nine Locations

The qualification of **Bedazzled** by the Turfgrass Water Conservation Alliance (TWCA) represents a big benefit for this turfgrass. The protocols for TWCA qualification are highly demanding, requiring that water-starved grass maintain green covering through a series of drought simulations.

KEY BENEFITS:

- Turfgrass Quality
- Traffic Wear Tolerance
- Brown Patch and Typhula Blight Resistance
- Low and Slow Growth Pattern

Industry Leaders

TMI develops, produces and markets turf grass seeds for the United States, North America and more than 20 other countries around the world.

Golf courses, sod growers for sod production and landscapers the world over have found TMI's cool season grasses, warm season grasses, golf grass, and specialty grasses to be state of the art when it comes to color, texture, uniformity, disease resistance and overall performance.

Our extensive network of carefully chosen seed growers produces seeds of the highest quality in the world, with high germination rates and purities that exceed official standards. Our certification, testing and quality controls continue to raise the benchmark for the entire Industry.
